

COUNTRY PROFILE

Austria

Austria's health system has a complex governance structure and is structurally and financially fragmented. Responsibilities for health system governance in Austria are divided between the federal and the regional level (nine federal states (Länder). Austria's pandemic management is structured around the Infectious Diseases Act (Epidemiegesetz), which empowers health authorities to implement measures to contain the infectious disease outbreak. The Federal Ministry for Labour, Social Affairs, Health Care and Consumer Protection (BMSGPK) is the central authority coordinating pandemic response, supported by other ministries, regional health authorities, and institutions like the Austrian Agency for Health and Food Safety (AGES). Key infrastructures include National Reference Centres and Laboratories for pathogen monitoring and surveillance. The pandemic plan outlines the establishment of crisis teams, legal frameworks, IT infrastructure, epidemiological surveillance, and laboratory capacities. Austria collaborates with EU bodies like the Health Security Committee and the HERA Board to ensure a coordinated response. This approach aims to ensure efficient resource allocation, vaccination campaigns, and public awareness to mitigate health threats (Pandemieplan, 2023)

Despite the strong electronic infrastructure and progress in primary data use, secondary use of data for health system governance and research remains limited. (from State of Health in the EU Austria Country Health Profile 2021 <u>https://health.ec.europa.eu/system/files/2021-12/2021 chp at english.pdf</u> and State of Health in the EU Austria Country Health Profile 2023 <u>https://health.ec.europa.eu/system/files/2023-12/2023 chp at english.pdf</u>)

Austria's funding system for research and innovation (R&I), including pandemic research, is multifaceted. The Austrian Science Fund (FWF) is Austria's main funding organisation for basic research and supports the ongoing development of top-notch Austrian science and basic research based on international standards. One of the key objectives guiding the FWF's activities at the international level is to enhance Austria's international visibility as a research location. The FWF's international programmes include a variety of funding instruments which are essentially designed to support bilateral and multilateral research projects as well as international networking.

The Austrian Research Promotion Agency (FFG) is another central body for application-focused R&I projects, providing substantial funding for industrial research. The Austrian Wirtschaftsservice GmbH (aws) constitutes the development bank for Austria and offers subsidies, low-interest loans, and guarantees to startups, SMEs, and large enterprises (<u>Research funding in Austria | FFG</u>). Austria also benefits from EU programs like Horizon Europe, which fund various research infrastructure projects. During pandemics, specific funding mechanisms are activated to ensure rapid mobilization of resources for research and development of medical countermeasures.

The Federal Ministry of Women, Science and Research (BMBWF) is the public body responsible for the governance of the science and research sectors in Austria and shares responsibility for the overall national R&D strategy. It is the key public authority for financing higher education and scientific research and also funding entity and affiliated partner in BE READY NOW.

Austria's overarching Research, Technology, and Innovation (RTI) Strategy 2030 outlines the country's commitment to advancing research and innovation across various sectors. While not pandemic-specific, it provides a stable framework for coordinating R&I efforts, including those related to health emergencies. The RTI Pact 2024–2026 operationalizes this strategy, defining strategic priorities and ensuring planning and financing security for research institutions.

In 2024, Austria launched the Austrian One Health network focusing on a transdisciplinary approach to health risks that integrates human, animal, and environmental health. The strategy emphasizes enhancing One Health education, incorporating socio-economic and cultural drivers, and establishing trusted communication channels between disciplines. Key actors include the University of Veterinary Medicine Vienna, Medical University of Vienna, and the Complexity Science Hub. Funding for One Health initiatives is provided through national and EU programs, supporting local projects and transdisciplinary research. Further, AGES is a key player in Austria's One Health landscape, dedicated to improving human, animal, plant, and environmental health. AGES has been pursuing this approach for over 20 years, leveraging its multidisciplinary expertise to monitor, analyze, and interpret changes in the environment and animal health and their impacts on human health.

Austria's SSH strategy is outlined in the GSK Strategy, which was developed by the Federal Ministry of Women, Science and Research (BMBWF) in collaboration with the SSH community. The strategy includes measures to enhance research quality, internationalization, and support for emerging talent. Key infrastructures include the Austrian Academy of Sciences (ÖAW), which leads programs like GO!DIGITAL and Heritage Science. Funding is provided through BMBWF and other agencies, supporting interdisciplinary research and digitisation efforts.

R&I Policies and Strategies The information is not exhaustive and should be updated regularly. Country has a dedicated strategy for research and innovation related to pandemic threat? No R&I strategy URL Country has an open science portal with information on publicly financed scientific research? Yes R&I portal https://eosc-austria.at/ No

R&I actors, authorities and activated processes that are activated in case of a

health threat	The actors are listed in alphabetical order, the list is not exh	austive and should be updated regularly
R&I actors, authorities and	ministries involved in case of an outbreak; mobilisation processes of research forces; (existing) national or regional structures that advise governments on R&I during emergencies; incentives ensuring qualitative scientific dissemination during a crisis; international scientific collaboration in case of an outbreak	
Name	Description	url
Austrian Academy of Sciences (ÖAW)	The Austrian Academy of Sciences (ÖAW) is Austria's leading non- university research and science institution. Established in 1847, ÖAW is dedicated to promoting the sciences and humanities in every respect and field, particularly in fundamental research	<u>https://www.oeaw.ac.at/oesterreichische-akademie-</u> <u>der-wissenschaften</u>
Austrian Agency for Health and Food Safety GmbH (AGES)	Preventing and containing potential risks for humans, animals and plants by analysis, monitoring, evaluation, research and communication	https://www.ages.at/en/

Austrian Federal Ministry of Education, Science and Research (BMBWF)	With regard to research, the BMBWF's responsibilities include strategy and knowledge transfer from universities and public institutions in the fields of research, technology and innovation, basic research in the STEM field, and research structures at national and international level.	https://www.bmbwf.gv.at/en.html
Austrian Health Promotion Fund (Fonds Gesundes Österreich, FGÖ)	The FGÖ is the national competence centre and the national funding agency for health promotion in Austria.	<u>https://fgoe.org/</u>
Austrian Institute for Health Technology Assessment (AIHTA)	AIHTA is involved in HTA	<u>https://www.aihta.at</u>
Austrian Institute of Technology GmbH (AIT)	Research & Innovation, diagnostics, rapid test decision support for pandemic management	https://www.ait.ac.at/
Austrian National Public Health Institute (Gesundheit Österreich GmbH, GÖG)	The Austrian National Public Health Institute (Gesundheit Österreich GmbH, GÖG) is the institution responsible for research and planning of public healthcare in Austria, and also acts as the national competence and funding center for the promotion of health.	<u>https://fgoe.org/</u>
Austrian Research Promotion Agency (FFG)	The Austrian Research Promotion Agency (FFG) is the national funding agency for industrial research and development in Austria.	<u>https://www.ffg.at/en</u>
Austrian Science Fund (FWF)	FWF funds basic and applied research	<u>https://www.fwf.ac.at/en/</u>
Caritas Austria	Caritas works at the interface between research and development. Together with various - internal and external - Caritas project partners, the Caritas neighbourhood work teams develop social innovations, strategies and recommendations for action.	<u>https://www.caritas-</u> stadtteilarbeit.at/projekte/forschung-entwicklung
Complexity Science Hub (CSH)	The Complexity Science Hub (CSH) is an independent research institute based in Vienna, Austria. It focuses on the study of complex systems, aiming to contribute scientific insights to address major societal challenges. Established in 2016, the CSH translates vast amounts of data into solutions for a better world by	<u>https://csh.ac.at/</u>

Disaster Competence Network Austria	research partners in the field of disaster prevention & management who bundle the Austrian professional competence in the field of disaster research	https://www.dcna.at/index.php/en/home.html
Federal Ministry of Defence (BMLV)	BMLV is responsible for the security of supply of Medical Counter Measures	<u>https://www.bmlv.gv.at/english/index.shtml</u>
Federal Ministry of Economy, Energy and Tourism (BMAW)	⁷ BMAW is responsible for the management of production and manufacturing capacities, including pharmaceuticals and medical devices	<u>https://www.bmaw.gv.at/en.html</u>
Federal Ministry Republic for Labour Social Affairs, Health Care and Consumer Protection (BMSGPK)	Main actor in case of outbreak, issues laws and regulations. Continuous health surveillance, complemented with the federal states. BMSGPK also contributes by supporting specific applied research	https://www.sozialministerium.at/en/Ministry/Contact _us.html
Johanniter Österreich Ausbildung und Forschung gemeinnützige GmbH (JOAFG)	JOAFG is part of Johanniter-Unfall-Hilfe in Austria, providing health- related knowledge to the public and training for medical professionals. It has its own research facility and is active in national and international research projects, focusing on social welfare, health and care, and security and disaster management.	<u>https://www.johanniter.at/</u>
Ludwig Boltzmann Gesellschaft	The Ludwig Boltzmann Gesellschaft (LBG) is a non-university research organisation. In addition, a funding programme was launched: The Clinical Research Group is Austria's first funding programme in the field of non-commercial disease- and patient- oriented (translational), consortium-based clinical research.	https://lbg.ac.at/
Medical University Graz		https://www.medunigraz.at/en/

Medical University Innsbrück

https://i-med.ac.at/universitaet/index.html.en

The Center for Public Health at MUW focuses on the influence of health and sickness on society, developing measures for

	prevention, health promotion, improved medical care, and environmental health. It includes divisions such as General and Family Medicine, Epidemiology, Health Economics, Social and Preventive Medicine, Medical Psychology, and Environmental Health.	<u>public-health/</u>
Medical-Scientific Fund of the Mayor of the Federal Capital Vienna (BGM)	The Medical-Scientific Fund of the Mayor of the Federal Capital Vienna (BGM) provides financial support for scientific research work by physicians who are established in Vienna or employed in Viennese institutions (hospitals, nursing homes and outpatient clinics) or in the public health service.	https://www.wien.gv.at/amtshelfer/gesundheit/gesun dheitsrecht/foerderungen/medizinisch- wissenschaftlicher-fonds.html
National Crisis and Disaster Management (SKKM)	In the case of complex crisis and disasters, it is the task of the SKKM, as part of the Ministry of Interior to ensure a quick coordination between the federal authorities and the provinces.	https://www.bmi.gv.at/204_english/skkm/start.aspx
Red Cross Research	The Red Cross engages in scientific research to advance blood safety, quality, compatibility, availability, and improvement in the diagnosis and care of patients.	<u>https://www.roteskreuz.at/projekte-in-der-</u> <u>katastrophenhilfe</u>
University Anniversary Fund of the City of Vienna	Anniversary Fund was created to support research projects with funding that are expected to produce results of interest and value for the City of Vienna.	
University of Vienna - Faculty of Social Sciences	The Faculty of Social Sciences at the University of Vienna engages in both research and teaching, focusing on contemporary societal structures and problems. It offers programs in Political Science, Social and Cultural Anthropology, Communication, Sociology, Nursing Science, Gender Studies, Development Studies, and Science and Technology Studies.	https://sowi.univie.ac.at/en/

Version May 2025

BE READY is responding to the call: HORIZON-HLTH-2021-DISEASE-04-06 "Building a European partnership for pandemic preparedness" under grant agreement 101057795. Starting date: 01.06.2022. | End Date 31.05.2025

BE READY PLUS is responding to the call: HORIZON-HLTH-2024-DISEASE-17 "Pandemic preparedness and response: Maintaining and enhancing the preparatory work for a co-funded European partnership for pandemic" under grant agreement 101195079. Starting date: 01.01.2025. | End Date 31.12.2025
